Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

This is a supplemental interview summary to make clear on the record that Mr. Richard V. Wells (Attorney of Record) was present for the telephone interview on 12 August 2005.

The Applicant requested the interview to discuss and clarify the invention in particular the limitations of "receiving a request to calculate measure" and "the allocated dimension level being undefined at a lowest dimension level" as stated in claim 1. The Applicant argued that instant invention breaks down and allocates data downwards thereby dynamically creating data in the undefined dimension. The Examiner disagreed in stating this step is not clearly interpreted or explained in claim language. The Examiner referred to the cited art Tse et al. page 4, paragraphs 0056-0061 in maintaining the rejection. No agreement was reached. Applicant stated a reply will be filed to the PTO shortly.
